The members of the board sincerely thank you for your dedication to the great cause in which we all share. Through your efforts the greatest of crimes are brought to justice, and the voices of the victims and their families are heard. The countless hours you spend away from your own family, and the scars you carry with you are not in vain. They are the unfortunate byproduct of your honorable choices and steadfast dedication to the mission. Thank you again for your service, and your commitment. Let's carry on.
